Рекомендации

Предварительный просмотр мнений участников LinkedIn об участнике Mykyta:

" I was working with Mykyta for around 2 years, he was the head of the team. Work was always under his control. Mykyta is very skilled and talented person. The distinctive features of his job are accuracy (always clear and well-assigned tasks), responsibility (always knows the status of all the tasks in his team), experience in IT, workaholism and good humor. I am realy enjoyed of collaborating with him and I hope someday we will work together again.

During the years Mykyta have proven to be a very professional and a highly technically skilled person. He is always doing what it takes to solve any issue or situation that might occur. This makes me, as a customer, very confident in all situations knowing that it is taken care of and handled by him in the best possible way. Suggestions and problem resolutions are always accurate and well documented.
